

Dear Investor,

We are pleased to announce the launch of *WealthCurrency* (<https://afrifocus.co.za/wealth-currency/>), a personal foreign exchange investment portfolio.

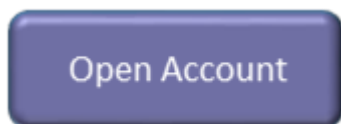

The portfolio will be managed as a fully segregated portfolio in your name, and is not a unit trust portfolio.

Although the portfolio is deemed high-risk, it has a low correlation with other asset classes, thereby offering diversification to your investments.

The portfolio will be managed by Mr. Vladislav Brykin, a professional foreign exchange portfolio manager. Vlad will be based at our Sandton office.

The money will be managed on the SwissQuote (<https://en.swissquote.com/>) offshore platform. You will therefore be required to use your offshore allowance to fund the portfolio. We can assist with the process of getting your cash into your SwissQuote account, via our association with FX Solutions Wealth (Pty) Ltd ("ForexWealth").

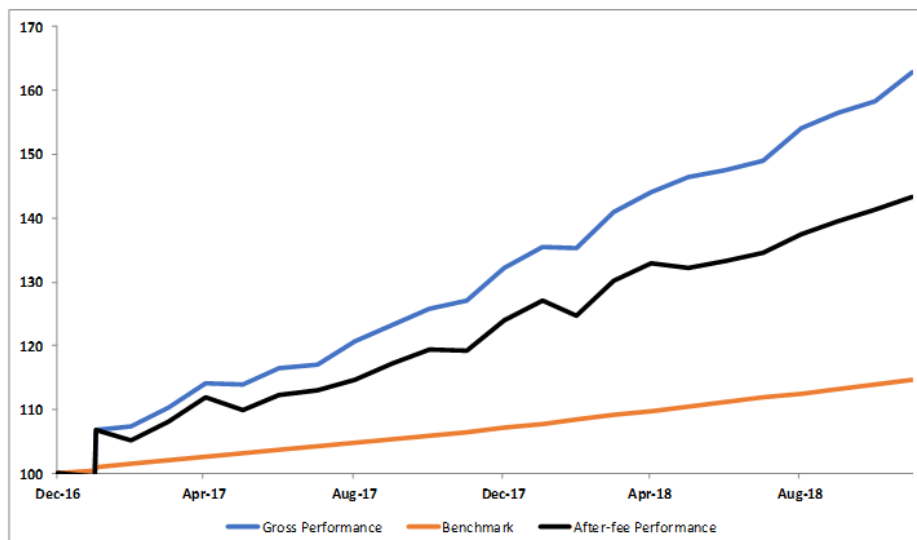

Open your SwissQuote account

To open your SwissQuote account, please click on the "Open Account" button above or on our WealthCurrency webpage, directly below the Portfolio Manager's contact details.

Investment performance

The Portfolio Manager's performance after fees and costs in US Dollars is shown below. The benchmark is the US Dollar 3 month deposit rate + 5% per annum.

Monthly after-fee performance

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Total
2017	-0,5%	7,4%	-1,5%	2,7%	3,5%	-1,8%	2,2%	0,6%	1,5%	2,1%	2,0%	-0,2%	19,23%
